

# EMS INTERFACILITY TRANSFERS PPE ASSISTANCE

## EFFECTIVE IMMEDIATELY

As partners in providing the best possible care, we want to support you during these challenging times.

Any EMS provider arriving to perform an **interfacility transfer**, that **does not have** the **PPE** needed to safely complete the transfer, should speak with the **ED Charge Nurse**. If PPE is available in the emergency department, we will provide PPE for the transfer.

PPE supplies are limited. Please be thoughtful and only ask for assistance, when necessary. Thank you
